

Sinclair Broadcasting's broadcast of this "news show," which is highly critical of Senator John Kerry, is a blatant attempt to use the airwaves for purely partisan political purposes. Sinclair is blatantly pro-Bush and pro-Republican, and is using its control of these stations to push a political agenda. This is not the kind of activity which would be acceptable 20 years ago, when the Fairness Doctrine existed. That doctrine should be re-instated immediately.

We need leadership from Washington, whatever the political effect.

Are you so partisan or shortsighted that you can't see this, Mr. Powell?
